

Dry Ice Storage

Dry Ice Container AT291

part no. 4046628

The Dry Ice Container made of polyethylene with foam filled cavities provides excellent insulation values.

The container has a lid with integrated hinges and a simple but very stable closing mechanism. The locking made of stainless steel is adjustable and offers the possibility to seal the container.

The integrated securable wheels allow for easy handling wherever the container is needed.

Specifications

Material:	Polyethylene with integrated foam as isolation
Locking:	Stainless steel
Wheels:	2 fixed wheels, 2 castor wheels (securable)
Inner dimensions (L × W × H):	930 × 540 × 600 mm (36.6 x 21.3 x 23.6 in)
Outer dimensions (L × W × H):	1'100 × 700 × 1'020 mm (43.3 x 27.6 x 40.2 in)
Weight empty:	60 kg (132.28 in)
Cubic capacity:	approx. 300 litres (10.59 ft³)
Average storage loss:	approx. 4.4 %/day
Capacity with pellets:	approx. 220 kg (485 lbs)
Capacity with blocks:	approx. 340 kg (749.57 lbs)
